Vecima Signs Agreement with the United States Air Force

VICTORIA – (July 21, 2010) – Vecima Networks Inc. ("Vecima") (TSX:VCM), a leading designer and manufacturer in the broadband cable and wireless network infrastructure market, today announced that it has signed an agreement to supply its VistaMAX 802.16-2004 compliant 5.8GHz wireless communications platform to the United States Air Force. This contract is for an unclassified communications platform providing a ubiquitous network via a WiMAX/Wi-Fi hybrid deployment for up to 1000 service personnel at Bagram Air Force Base. This opens access to the internet for personal communications with friends and relatives home and abroad. The platform will be marketed via worldwide sales and distribution channels with the direction to assist other bases and communities around the world seeking similar turnkey services. Vecima also provided installation and training services on location in Bagram, ensuring a smooth maintenance transition to the base's IT staff.

"We're happy to be able to bring non-critical communications to the men and women of the base," said Robert Forget, AVP of Product Management at Vecima. "We understand the importance of being able to keep in touch with loved ones and hope to bring people a little closer together."

About Vecima Networks

Vecima Networks Inc. (TSX:VCM) designs, manufactures and sells products that enable broadband access to cable, wireless, fibre and telephony networks. Vecima's hardware products incorporate original embedded software to meet the complex requirements of next-generation, high-speed digital networks. Service providers use Vecima's solutions to deliver services to a converging worldwide broadband market, including what are commonly known as "triple play" (voice, video and data) and "quadruple play" (voice, video, data and wireless) services. Vecima's solutions allow service providers to rapidly and cost-effectively bridge the final network segment that connects the system directly to end users, commonly referred to as "the last mile," by overcoming the bottleneck resulting from insufficient carrying capacity in legacy, last mile infrastructures. Vecima's products are directed at two principal markets: Converged Wired Solutions and Broadband Wireless. The Company has also developed, and continues to focus on developing, products to address emerging markets such as Voice over Internet Protocol, fibre to the home and IP video. www.vecima.com

Forward-Looking Statements

Certain statements in this press release may constitute forward-looking statements within the meaning of applicable securities laws. All statements other than statements of historical fact are forward-looking statements. These statements include but are not limited to statements regarding management's intentions, belief or current expectations with respect to market and general economic conditions, future costs and operating performance. These statements are not guarantees of future performance and involve risks and uncertainties that are difficult to predict, and/or are beyond our control. A number of important factors could cause actual outcomes and results to differ materially from those expressed in these forward-looking statements. These factors include, but are not limited to, the current significant general economic uncertainty and credit and financial market volatility and the distinctive characteristics of Vecima's operations and industry that may have a material impact on, or constitute risk factors in respect of Vecima's future financial performance, as set forth under the heading "Risk Factors" in the Company's Annual Information Form dated September 28, 2009, a copy of which is available at www.sedar.com. In addition, although the forward-looking statements in this press release are based on what management believes are reasonable assumptions, such assumptions may prove to be incorrect. Consequently, readers should not place undue reliance on such forwardlooking statements. In addition, these forward-looking statements relate to the date on which they are made. Vecima disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.
