Vecima Reports Fiscal 2012 Q2 Results

VICTORIA – (February 14, 2012) – Vecima Networks Inc. (TSX:VCM), an experienced designer and manufacturer of innovative technology in the broadband equipment market, today reported financial results for the fiscal 2012 second quarter ended December 31, 2011. All figures are in Canadian dollars and in accordance with International Financial Reporting Standards ("IFRS") unless otherwise stated.

SUMMARY OF OPERATING RESULTS

(CAD dollars in millions except percentage and per share data)	Q2 FY2012	Q1 FY2012	Q2 FY2011
Revenue	21.2	20.0	20.0
Gross Margin	37.0%	36.6%	29.6%
EBITDA	10.0	1.7	13.1
Adjusted EBITDA (excludes gains on sale of assets)	2.1	1.6	(1.0)
Net income / (loss)	6.2	(0.7)	6.9
Earnings (loss) per share			
(based on weighted average number shares outstanding)	\$0.28	\$(0.03)	\$0.30
Cash and cash equivalents	12.6	7.8	8.2

Vecima's second quarter fiscal 2012 revenue of \$21.2 million increased 6% as compared to the first quarter of fiscal 2012 due primarily to increased sales of recently introduced and new products.

"Increased revenue from our recently introduced and new products signals that the expected revenue shift away from our legacy products is continuing. Our customers have increased confidence in the economy moving forward and as a result, are purchasing equipment to further facilitate their operational requirements," said Dr. Surinder Kumar, CEO of Vecima. "We will continue our focus on containing expenses as we grow sales from new and recently introduced products."

Vecima's earnings per share increased to \$0.28 per share from a loss of \$0.03 per share in the first quarter of fiscal 2012.

The Company's cash position was \$12.6 million at quarter end, up from \$7.8 million at the end of the first quarter of FY2012.

On December 20, 2011, Vecima completed its previously announced \$8.0 million sale of 3.5 GHz radio spectrum.

"The improvement in gross margin indicates that we're realizing operational savings from decisions that were made in previous quarters," noted Dr. Kumar. "I'm confident that the executive team that I have in place will continue to execute on initiatives that I have set. These initiatives will result in greater improvements in overall performance."

FINANCIAL HIGHLIGHTS OF RECENTLY INTRODUCED PRODUCTS

Sales from these products may fluctuate from quarter to quarter depending on customer demand and the timing of customer purchase decisions. However, over a longer time horizon, the Company expects to see revenue growth from these products.

Terrace A

In light of the fact that Q1 FY2012 sales of Terrace A increased by 33% over Q4 FY2011, we were happy to be able to maintain this level of sales and see a marginal increase of 2% in Q2. We expect to increase this revenue as new versions of this family are currently being introduced.

OEM QAM Modules

The quarter over quarter revenue from these products increased by 26%. Our OEM partner has strong sales projections which provide us confidence that there will be continued growth.

FINANCIAL HIGHLIGHTS OF NEW PRODUCTS

These new products are in the initial stage of market introduction and sales orders are expected to ramp up over the next three quarters.

<u>TerraceQAM</u>

Sales of TerraceQAM in Q2 FY2012 were \$1.1 million. This is an encouraging ramp up in sales given that we were still concluding approval testing in the previous quarter. Forecasts indicate that the conclusion of second phase testing will intensify sales in future quarters.

<u>Concierge</u>

Optimization in the product's final design in response to customer testing and feedback lead to some initial sales in Q2 FY2012. The sales were from a market leader in the hospitality industry and we expect to receive greater uptake from this customer through calendar 2012.

Fleet Management

Our first customer for our fleet management solution continued to perform field trials in multiple fleets. We have considerable interest from other large customers for this technology.

FINANCIAL HIGHLIGHTS OF BROADBAND WIRELESS AND SERVICE SEGMENT

Broadband wireless revenue for the three months ended December 31, 2011 was \$2.4 million, a decrease of 8% over Q1 of fiscal 2012. The decline in Q2 was primarily a result of weaker sales in the BWIN (wireless DOCSIS) line of products.

YourLink revenue was \$3.1 million for Q2 FY2012, compared to \$3.2 million last quarter. The decrease in the current period compared to the previous period is primarily due to the discontinuance of wireless cable television broadcasting in Saskatchewan as a result of mandatory spectrum clawback by Industry Canada. YourLink Inc. continues to broadcast cable television in British Columbia.

OUTLOOK

Revenue for fiscal 2012 is expected to be in our previously announced range of between \$90 million to \$100 million. Vecima remains on track to deliver gross profit margin at the top end of our targeted 30% to 40% range. The Company will diligently monitor operating expenses and prudently add additional resources as necessary to meet our revenue growth objectives and achieve operational profitability.

CONFERENCE CALL

A conference call and live audio webcast will be held on February 14, 2012 at 1 p.m. ET to discuss the Company's first quarter results. About Vecima Networks

Vecima Networks Inc. (TSX:VCM) designs, manufactures and sells products that enable broadband access to cable, wireless and telephony networks. Vecima's hardware products incorporate original embedded software to meet the complex requirements of next-generation, high-speed digital networks. Service providers use Vecima's solutions to deliver services to a converging worldwide broadband market, including what are commonly known as "triple play" (voice, video and data) and "quadruple play" (voice, video, data and wireless) services. Vecima's solutions allow service providers to rapidly and cost-effectively bridge the final network segment that connects the system directly to end users, commonly referred to as "the last mile", by overcoming the bottleneck resulting from insufficient carrying capacity in legacy, last mile infrastructures. Vecima's products are directed at two principal markets: Converged Wired Solutions and Broadband Wireless. The Company has also developed and continues to focus on developing products to address emerging markets such as Voice over Internet Protocol, fibre to the home and IP video.
