

## Vecima Receives Notice of Legal Proceedings

**VICTORIA** – (December 18, 2012) – Vecima Networks Inc. (“Vecima” or “the Company”)(TSX:VCM), a leading designer and manufacturer in the broadband cable and wireless network infrastructure Market, announced today that it has been named as a defendant in legal proceedings filed in the Supreme Court of Ontario by Inukshuk Wireless Partnership (“Inukshuk”). Inukshuk alleges in the legal proceedings, among other things, that an agreement existed for Vecima to sell to Inukshuk certain radio spectrum and that Vecima did not comply with that agreement. In the legal proceedings, Inukshuk is seeking, among other things, an order requiring Vecima to sell the radio spectrum to Inukshuk, an injunction preventing Vecima from selling the radio spectrum to any other person, and monetary damages.

Vecima believes the legal proceedings are without merit and intends to vigorously contest them. The radio spectrum at issue in the legal proceedings is not core to Vecima’s continuing operations.

### **About Vecima Networks**

Vecima Networks Inc. (TSX:VCM) designs, manufactures and sells products that enable broadband access to cable, wireless and telephony networks. Vecima’s hardware products incorporate original embedded software to meet the complex requirements of next-generation, high-speed digital networks. Service providers use Vecima’s solutions to deliver services to a converging worldwide broadband market, including what are commonly known as “triple play” (voice, video and data) and “quadruple play” (voice, video, data and wireless) services. Vecima’s solutions allow service providers to rapidly and cost-effectively bridge the final network segment that connects the system directly to end users, commonly referred to as “the last mile”, by overcoming the bottleneck resulting from insufficient carrying capacity in legacy, last mile infrastructures. Vecima’s products are directed at two principal markets: Converged Wired Solutions and Broadband Wireless. The Company has also developed and continues to focus on developing products to address emerging markets such as Voice over Internet Protocol, fibre to the home and IP video.
